ICD-10 Panel Discussion

HFMA Spring Conference
* Given what you accomplished to-date in getting prepared for ICD-10 implantation on October 1, 2014, what does this delay mean to you?
Question 2

* What do you think this delay means to others across the health care industry?
Do you think this delay impacts future regulatory compliance initiatives?
* What are some implementation options that your organization is currently considering and why?
What specific challenges do you see with your implementation options?
